Welcome to The Crows Nest Studio.

This year has been a busy year for creative work .

In the front room are collages from my trip to New Zealand earlier this year. I spent time travelling the south Island sketching & photographing & soaking up this magical place.

In April I spent a week in a studio in Suffolk working on these.

In the back room are collages from well visited & loved places ; North Kent Marshes & Suffolk.

On the landing you will find more collages

Go up to my Studio, see where I work, it`s a wonderful space, perfect for creating.

Don`t forget to look out for the Three Hares; one on each level.

Also in many of my collages you will find a

climbing person as I make these from Climbing
magazines !

Enjoy Fiona
